

TOTAL IT GLOBAL'S **WAREHOUSE** AS A SERVICE

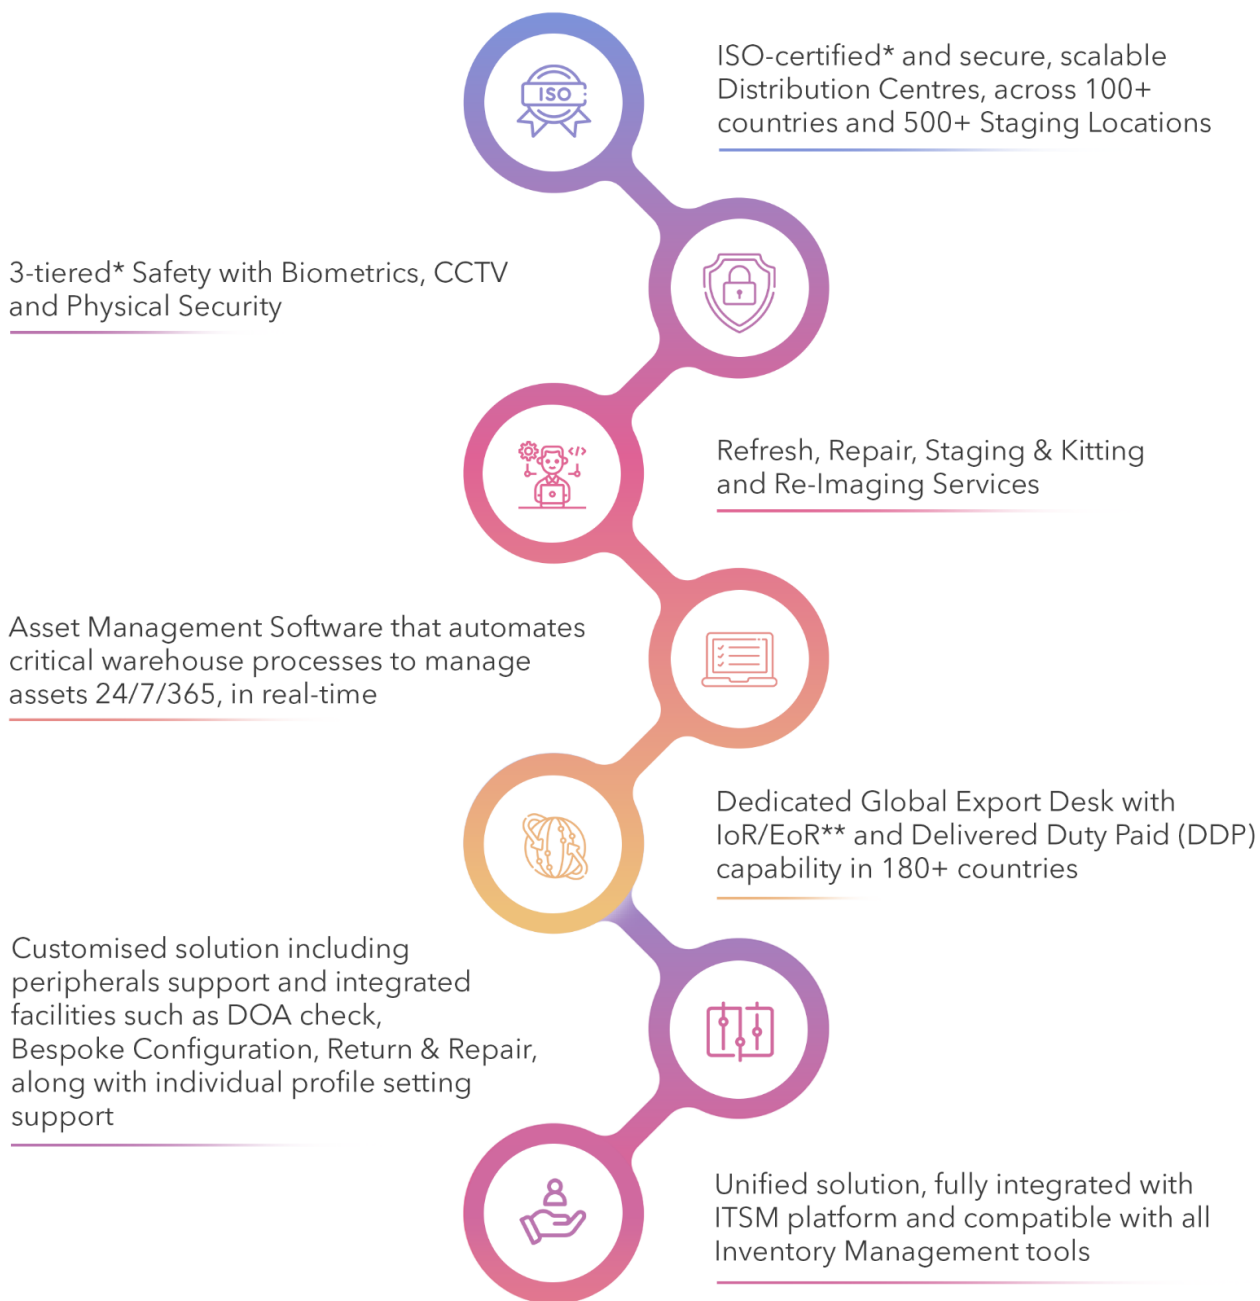

TRANSFORMING BUSINESSES

BUILT FOR THE **GLOBAL ENTERPRISE**

Total IT Global's Warehouse as a Service (WHaaS) is for high-growth enterprises that seek a smart IT asset storage and logistics solution that is flexible, affordable, scalable and secure. This solution offers worry-free, IT asset handling and storage, on demand. Our unique and proprietary combination of smart logistics and technical service support, globally, helps manage IT assets, in a safe and secure environment. Our warehouses across 100+ countries, offer advanced automation and reporting, certified, COVID-compliant engineers and near-shore parts with last mile connectivity, covering prime locations, essential and strategic to your business. A dedicated Global Export Desk with Importer/Exporter-of-Record and Delivered Duty Paid capability completes the circle to deliver a superior supply chain experience, customised to your business needs.

■ A FLEXIBLE & SCALABLE SOLUTION

Total IT Global's Warehouse as a Service (WHaaS) ensures worry-free, IT asset handling and storage, on-demand, providing flexibility to scale and substantial savings in CapEx.

*These facilities are available in select locations only.

■ BENEFIT FROM OUR GEOGRAPHICAL PRESENCE & EXPERTISE

Benefit from substantial savings in CapEx and free up cash flow by redirecting investments in space and resources to other strategic business goals.

Increase flexibility across multiple SLAs, bridge requirements from global locations and maximise uptime with our highly scalable plug-and-play model.

Facilitate seamless intra and inter-country IT asset transfers, with our Global Export desk capability, to realise savings in time, cost and manpower.

Ensure safe and secure management of IT assets, with our Global Deployment, Warehousing and Supply Chain capabilities, having governance protocols in place.

Automate and enhance workplace productivity with a one-stop-solution for the entire IT asset lifecycle across Enterprise and End-User Computing, by easily integrating WHaaS with our other offerings like, Third Party Maintenance (TPM), Smart Kiosk, and more.
